

# Farm Tank - 17,500

- Single wall tank, that is durable and sturdy designed for Australian conditions
- Designed for easy bulk or nozzle filling and set up to mount a variety of dispensing pump solutions
- Provides a safe environment, removing the need to climb up ladders or unsafe stairs found on gravity fed tanks
- Low maintenance and installation costs
- Dispensing is simple with a large range of custom fitted and complete turn key pump solutions in 12V, 240V or Solar powered options, making them an ideal stand alone refuelling system
- Great under tank visibility for inspections
- Paint finish – White, two pack epoxy marine grade
- Fast fill 80 mm connection or nozzle fill position option
- Strong galvanised stairs to access dip point
- Calibrated dip sticks and galvanised Vent Pipe with Updraft Vent
- Heavy duty support legs - ready to fasten to concrete pad at farm
- Various port openings on tank top for gauging or other uses
- Easy maneuverability with lifting points on tank
- Warning decals for combustible application - compliant to standards
- Pump package options available (Installed or in kit form)

## Specifications
