Everlink AFM Controller - Dual Pump

Flush mount with GSM module & SIM

INDUSTRY LEADING

With its industry leading flexible user features and cloud management software, Everlink makes managing your fuel and additives simple, like it should be.

TOUGH INSIDE AND OUT

Designed to last with tough stainless steel enclosures, powder coated for extra protection, and advanced industrial rated electronics, Everlink is there for you 24-7.

LIVE DATA

Live data uploaded directly to our cloud software gives you the ability to track not only your fuel usage but your remaining wet-stock with our optional ATG tank level sensor.

EASY TO USE

Our design philosophy is simple, make it flexible, make it easy to use but comprehensive to meet the most demanding requirements.

FLEXIBLE

With a large range of optional accessories, Everlink can be configured to meet your exact requirements. No more inflexible fixed operation parameters, no more product redundancy.

MODULAR

The easily upgradable plug and play hardware and remotely loadable software ensures the system can expand to meet your on going business requirements. You wont get left behind as technology changes.

ECONOMIC
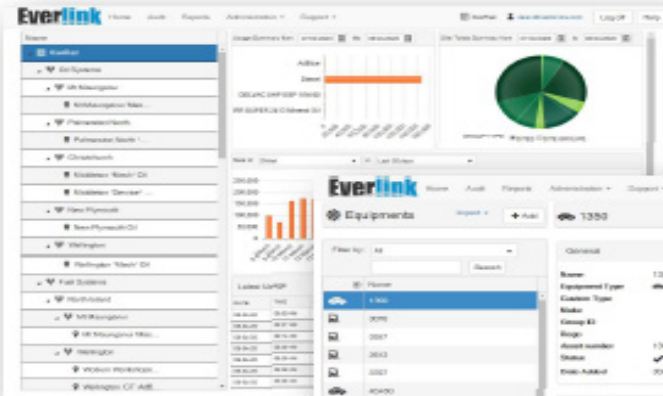

Quick return on investment with reduced administration and prevention of fuel shrinkage.

SUPPORT

Professional support network countrywide ensuring help is there whenever you need it.
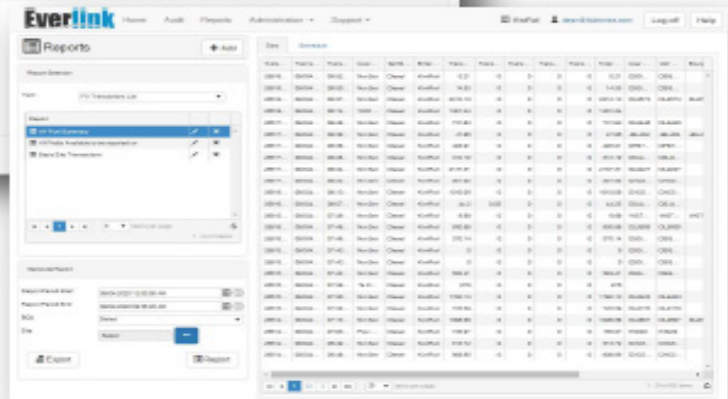

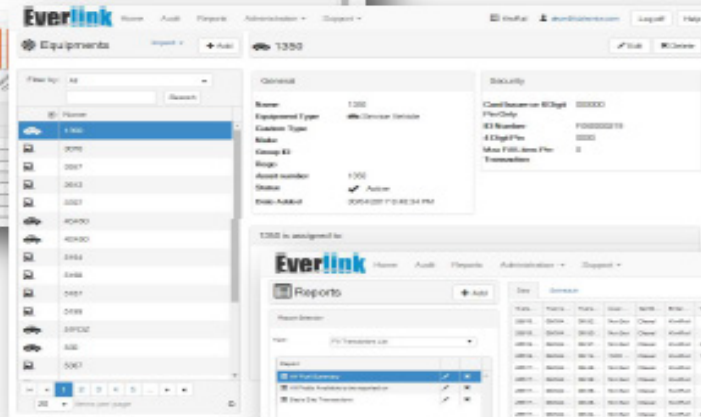

PROVEN

Trusted by some of the largest fuel users and fuel suppliers

ACCURATE

Take the manual processes and the effort out of fuel reconciliation with accurate recording of every transaction.
Intuitive cloud based software suite give you 100% control over you fuels and additives with quick overview graphs and easy user and asset management.

Run quick pre-set "Audit" reports and export them or create your own Excel reports in any configuration you like with our comprehensive report builder module.

PINS (4 or 6 digit). ASSET or REGO Numbers (2 to 6 character)

RFID Key Tags and Cards

Vehicle RFID Tags with Wand

NFC Tags and Cards

AVI Tags (Automatic Vehicle Identification)

Magnetic Stripe Fuel Cards

With flexibility to use single or dual IDs (user and asset) and the ability to choose any of 3 customisable data fields, there is a authorisation solution for every application. Limitations can be applied to the amount of fuel that can be taken per transaction for each user and also what fuel types the user has access to on a site.

Fuelco is the authorised distributor for Everlink Products in Australia
